SWAYAM (Study Webs of Active-Learning for Young Aspiring Minds) is a **MOOC** (Massive open online courses) that offers courses in various fields like engineering, humanities, social sciences, etc.

P48

P48

SWAYAM:

MOE + AICTE

- This program is initiated by the Government of India (i.e. it is not a Non-Governmental Organization) and designed to achieve the three cardinal principles of Education Policy viz. **access, equity, and quality**.
- The objective is to take the best teaching-learning resources to all, including the most disadvantaged.
- It is an open online course (i.e. it is not an online platform)
- All the courses are interactive, prepared by the best teachers in the country, and are available, free of cost to any learner.
- The courses hosted on **SWAYAM** are in 4 quadrants –
 1. Video lecture,
 2. Specially prepared reading material that can be downloaded/printed
 3. Self-assessment tests through tests and quizzes, and
 4. An online discussion forum for clearing the doubts.
- Various steps have been taken to enrich the learning experience by using audio-video and multimedia and state of the art pedagogy/technology.

Q6) Below are given some essentials of teaching competencies

- (i) Assisting in the conduct of curricular activities.
- (ii) Motivating students for learning
- (iii) Improving classroom management
- (iv) Knowing subject matter thoroughly
- (v) Taking interest in college administration.

Which one of the following combinations is most appropriate for classroom teaching?

1. (i) (ii) (iii) and (iv)
2. (i) (ii) (iii) and (v)
3. (i) (iii) (iv) and (v)
4. (ii) (iii) (iv) and (v)

Q6) Below are given some essentials of teaching competencies

- (i) Assisting in the conduct of curricular activities.
- (ii) Motivating students for learning
- (iii) Improving classroom management
- (iv) Knowing subject matter thoroughly
- (v) Taking interest in college administration. *incorrect*

Which one of the following combinations is most appropriate for classroom teaching?

- ✓ 1. (i) (ii) (iii) and (iv)
- 2. (i) (ii) (iii) and (v)
- 3. (i) (iii) (iv) and (v)
- 4. (ii) (iii) (iv) and (v)

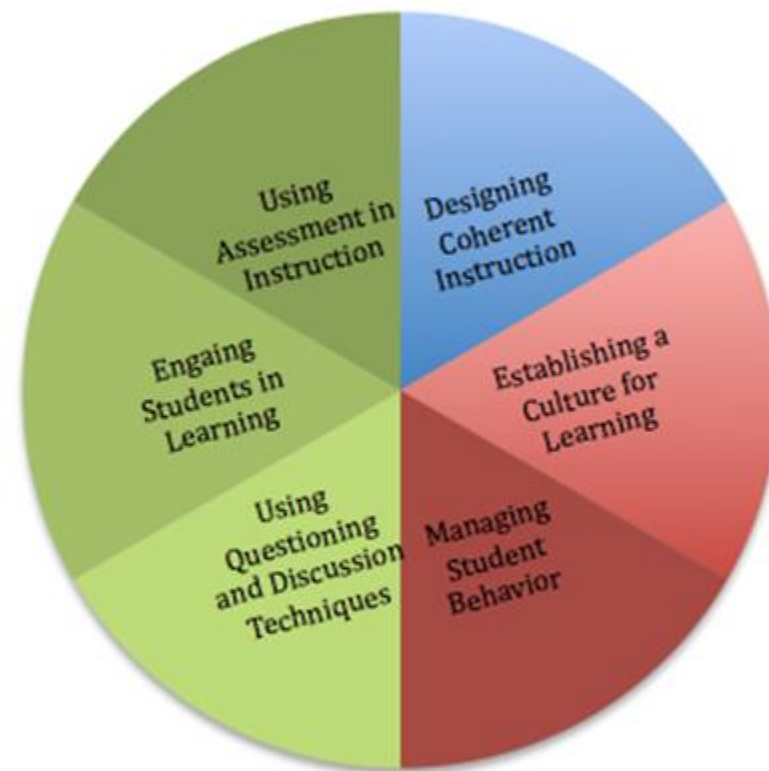

Some Teaching Competencies – *Teacher*

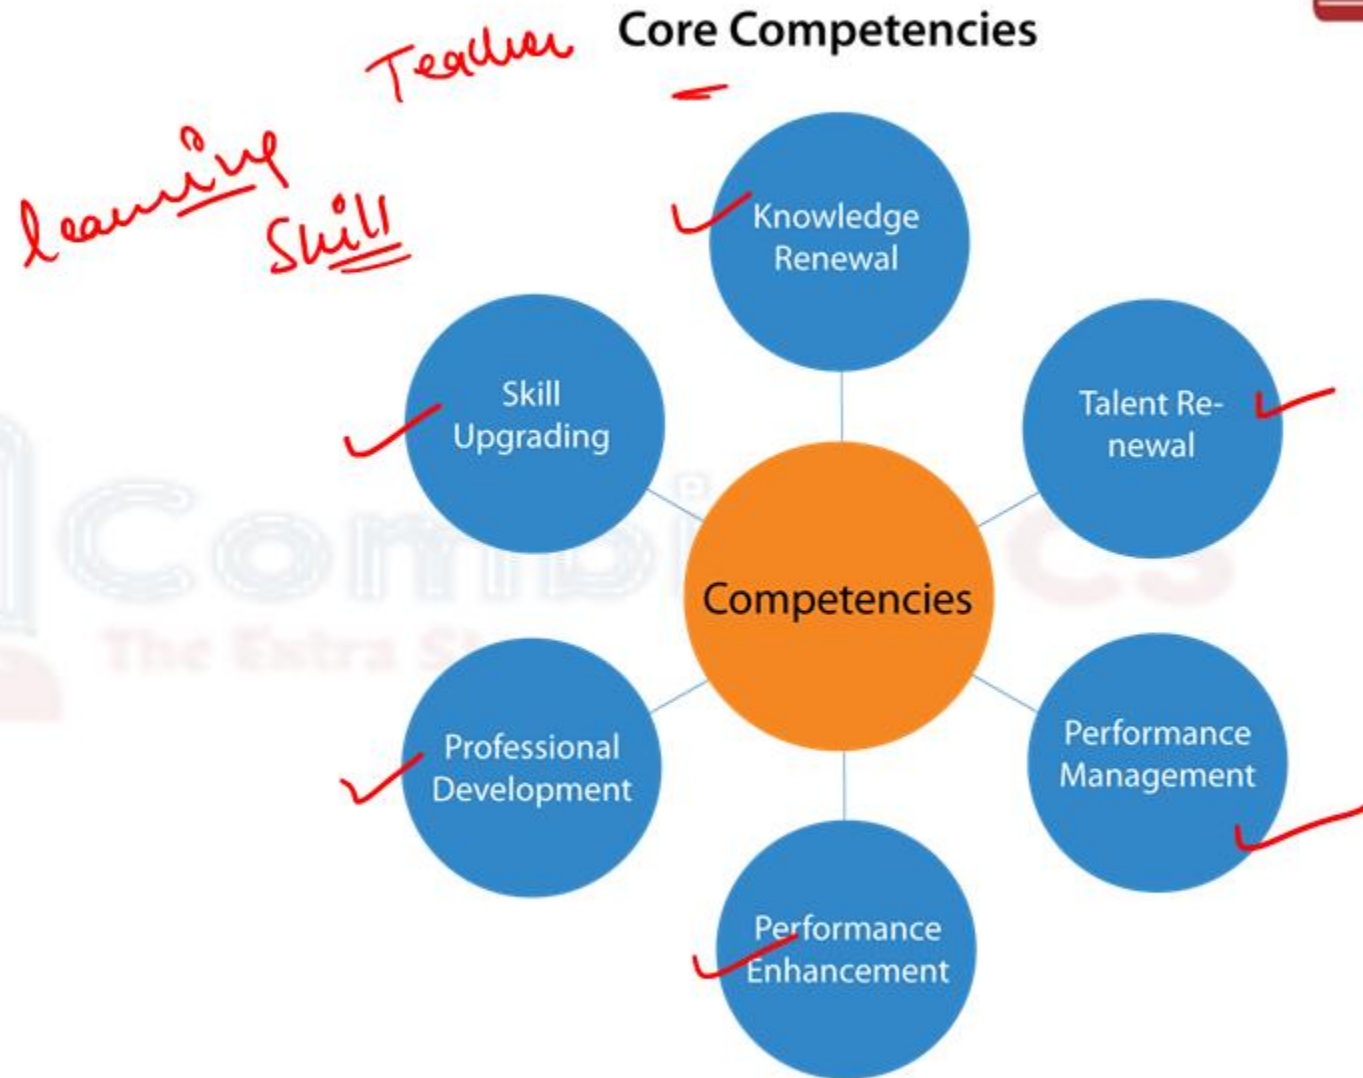

1. Communication and Interpersonal Skills
2. Organization and planning
3. Classroom Management
4. Facilitation and engagement
5. Assessment and coaching
6. Collaboration and teamwork
7. Flexibility and Adaptability
8. Caring and Inclusiveness

Teacher's competency is important for the process of student 'well development' in ensuring quality learning, especially for students in vocational colleges.

Teachers' competency will give positive effects on students' academic development and skills, and help teachers to improve their teaching techniques.

6 Competencies

Memory level of teaching *levels*

Teacher

- P48* • Thoughtless teaching
- It is concerned with **memory or mental ability** that exists in all living beings.
- Teaching at the memory level is considered to be the lowest level of teaching.
- At this level, thinking ability does not play any role.
- The role of the teacher is prominent and that of the student is secondary.
- The main practice is of cramming the facts, information, formulas, and laws that are taught to them.
- The Focus of concern is "Recall of facts and information".

Rote

The Extra Step

~~Understanding~~ level of teaching

meaning

- The teaching at the understanding level is of a higher quality than the one at the memory level.
- It is more useful and thoughtful from the point of view of mental capabilities.
- At this level of teaching, ***the learner gets an opportunity to discriminate at length between positive and negative exemplars of concepts***
- The Focus of concern is "Seeing of relationship among facts and their examples".

MCQ

Reflective level of teaching

- This level is also known as the introspective level.
- Reflecting on something means giving careful thought to something over a period of time.
- It also means thinking deeply about something.
- The Focus of concern is problem raising and problem-solving.

P18

Problem - Solv

Cognitive

Q7 In which level of teaching, the learner gets an opportunity to discriminate at length between positive and negative exemplars of concepts?

1. Memory level
2. Understanding level
3. Reflective level
4. Autonomous development level

exam

10 sec.

↳

example

In which level of teaching, the learner gets an opportunity to discriminate at length between positive and negative exemplars of concepts?

1. Memory level *net*

Ans: 2

✓ 2. Understanding level

50% — 80%

3. Reflective level

practice

4. Autonomous development level

The autonomous development level of teaching

student is inclined

- Autonomy means the ability to take control of one's own learning, independently or in collaboration with others. //
- An autonomous learner will take more responsibility for learning and is likely to be more effective than a learner who is reliant on the teacher. //
- The Focus of concern is **"affects and feelings"**.

The Extra Step

Q.8 Learning objectives mean

1. Learning experience
2. Concise outcomes
3. Academic achievement
4. Intended learning outcomes

Learning objectives mean

~~1.~~ Learning experience

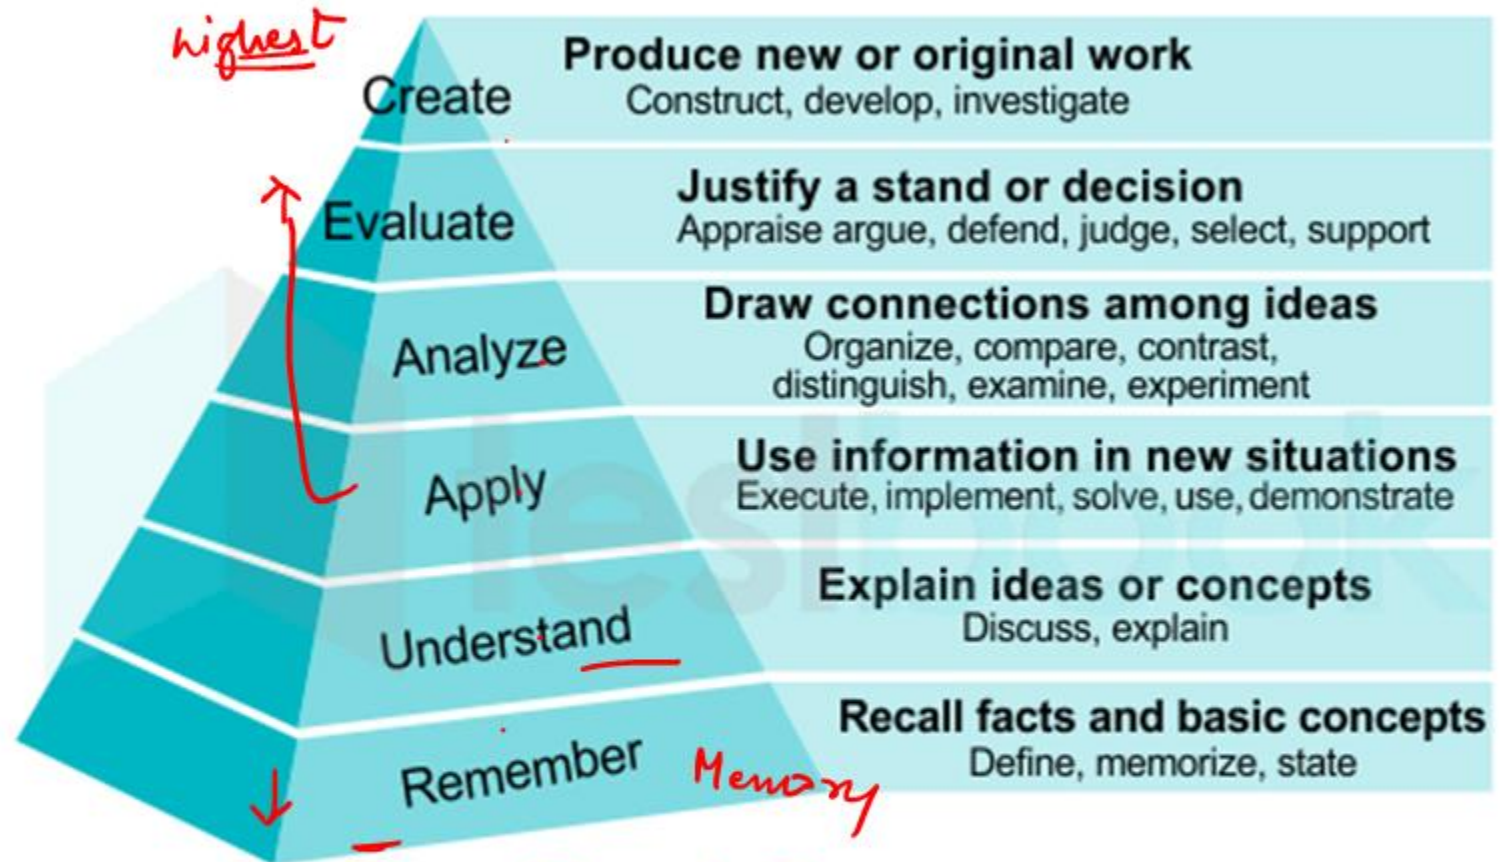

2. Concise outcomes

3. Academic achievement

~~4.~~ intended learning outcomes

Ans: 4

overall

Bloom's Taxonomy

- Based on this taxonomy, teaching is carried out at three levels, keeping in mind the developmental stage of the learners to achieve the desired objectives.
- According to Bloom, recalling of previously learnt information reflects one's **memory level** (least thoughtful teaching),
- **Learning of concepts by way of giving various examples related to it facilitates understanding in learners** (Thoughtful teaching),
- Isolating and organizing information into parts involves analyzing and generation or construction of new ideas reflects one's **reflective level** (upper thoughtful level) as understood from the diagram shown below:

Domains of Learning	Mode of Learning	Example Abilities
 <i>Cognitive Domain</i>	<i>Thoughts/ Thinking</i>	<i>Memorizing, Reasoning etc.</i>
 <i>Affective Domain</i>	<i>Emotions/ Feeling</i>	<i>Appreciation, Motivation etc.</i>
 <i>Psychomotor Domain</i>	<i>Actions/ Doing</i>	<i>Typing, Playing etc.</i>

9 Events

1. Gaining attention
2. Informing the learner of the objective
3. Stimulating recall of prior knowledge
4. Presenting information
5. Providing guidance
6. Eliciting performance
7. Providing feedback
8. Assessing performance
9. Enhancing retention & transfer

Figure 3: Gagne's Nine Events of Instruction.
From hsc.unt.edu

Five Types of Learning

Intellectual Skills

- Problem solving, discriminations, concepts, principles

Cognitive Strategy

- Meta-cognition - strategies for problem solving and thinking

Verbal Information

- Facts of knowledge

Attitude

- Actions that a person chooses to complete

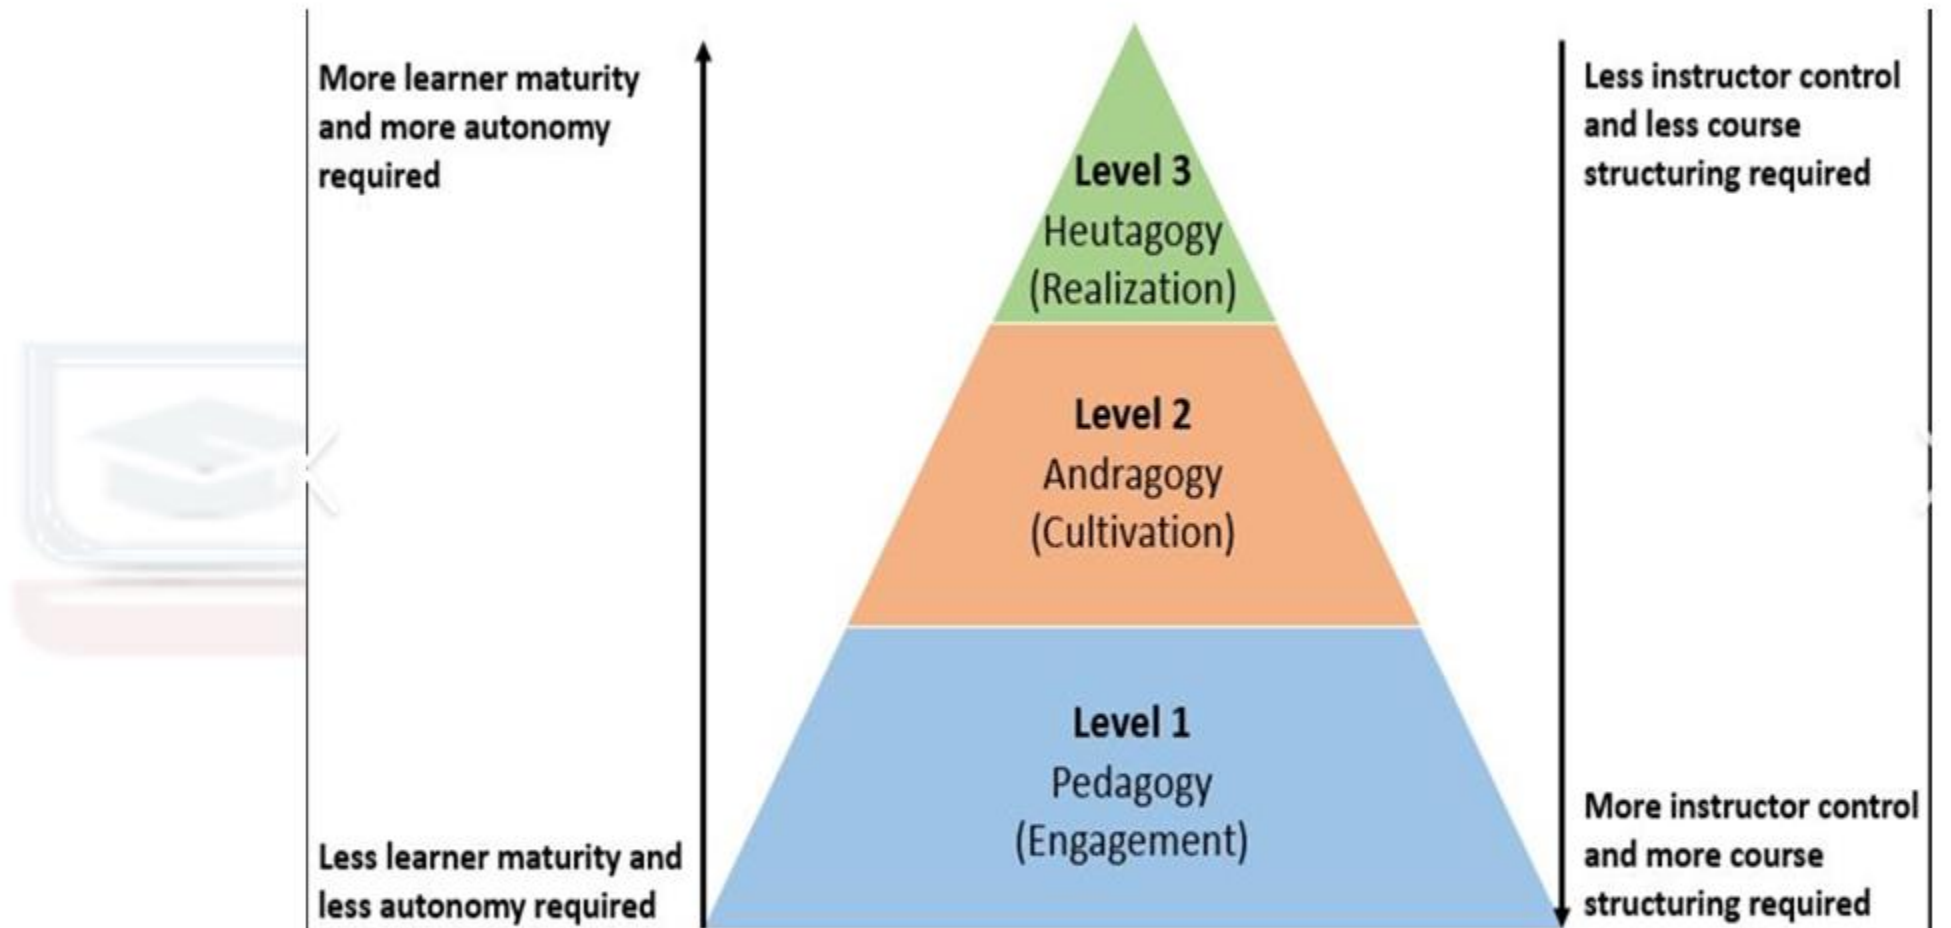

Motor Skills

- Behavioral physical skills

Gagne's Taxonomy of Learning (adapted from R. M. Gagne, 1985)
arcmi01.uncw.edu

Comparison of Pedagogy, Andragogy & Heutagogy

	Pedagogy	Andragogy	Heutagogy
Dependence	Learner is dependent	Adults are independent	Learners are interdependent
Learning Resources	Teacher-driven and controlled	Adult and Teacher controlled	Teacher and learner provided. Learner negotiates path
Learning Reasons	Gaining next level	Drive to increase performance	Learning potential, unplanned, non-linear
Learning Focus	Subject-centred, prescribed	Task- or problem-centred	Proactive and problem-oriented
Motivation	External motivation	Internal motivation	Self-efficacy driven
Teaching Role	Process-designer, imposer, knowledge-holder & director	Enabler, collaborator	Capability-builder

Piaget's Preoperational Stage of Cognitive Development

Birth to 02 Years of Age

Sensorimotor Stage

First stage of child's mental development which mainly involves sensation and motor skills such as hear, sight, feel, taste, move, manipulate, bite, chew and so on

2 to 7 Years of Age

Preoperational Stage

In this stage children use their mental ability to represent events and objects in a various ways like using symbols, gestures and even communication, and so on thus their logical reasoning are not yet organized or developed //

7 to 11 Years of Age

Concrete-Operational Stage

At this stage the child becomes more stable, think operationally and use logical reasoning rather than intuitive thought

11 Years of Age Through Adulthood

Formal-Operational Stage

Where children become more systematic and reasonable and they can not only reason of tangible objects and events but also they possess capability of reasoning and thinking in more abstract, hypothetical and idealistic ones

Bloom's Taxonomy

Q9

Q10

Q) Given below are two statements

Piaget

Statement I: The ability to form and use symbols (words, gestures, signs, images, and so on) are accomplished in the preoperational period.

Statement II: According to Piaget, preoperational children do not have a tendency to be egocentric.

In light of the above statements, choose the most appropriate answer from the options given below:

Correct

1. Both Statements I and II are correct.
2. Both Statements I and II are incorrect.
3. Statement I is correct but Statement II is incorrect
4. Statement I is incorrect but Statement II is correct

Q) Given below are two statements

Statement I: The ability to form and use ^{True} symbols (words, gestures, signs, images, and so on) are accomplished in the preoperational period.

^{False} Statement II: According to Piaget, preoperational children do not have a tendency to be egocentric.

In light of the above statements, choose the most appropriate answer from the options given below:

Ans: 3

1. Both Statements I and II are correct.
2. Both Statements I and II are incorrect.
3. Statement I is correct but Statement II is incorrect
4. Statement I is incorrect but Statement II is correct

Moderate Tough

Q) Given below are two statements :

Statement I : One of the basic principles of progressive view of teaching is that education should be life itself rather than a preparation for living.

Statement II : According to reconstructionist view of education the new social order must be 'genuinely democratic'.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true.
- (2) Both Statement I and Statement II are false.
- (3) Statement I is true but Statement II is false.
- (4) Statement I is false but Statement II is true.

- (2) Both Statement I and Statement II are false. ~~X~~
- (3) Statement I is true but Statement II is false. ~~X~~
- (4) Statement I is ~~false~~ but Statement II is true.

<u>Complex</u> TRADITIONAL	PROGRESSIVE <u>view</u>
<u>Teacher-centered experiences</u>	Experience of, for, by the child
High student : teacher ratio	High teacher : student ratio <u>mentor</u>
Methodologies pictorial & abstract	Methodologies progress from <u>concrete</u> , <u>pictorial</u> , abstract
Emphasis on wide fact base and skills learned in isolation	Emphasis on developing <u>concepts</u> (big ideas) and application of skills
Product is emphasized	Process and product are emphasized
Predominance of summative assessment	Use of summative and formative assessment =
External discipline	<u>Positive discipline</u>

www.explorationspreschool.org

What is reconstructionism?

- Also known as SOCIAL RECONSTRUCTIONISM, this theory claims to be the true successor of progressivism and declares that **the chief purpose of education is to** ✓ **“RECONSTRUCT” society** in order to meet the cultural crisis brought about by social, political, and economic problems.

nation social cultural

new type

A Functionalist view of Education

- ⌘ Functionalists view education in terms of the "functions" it performs in society. This implies a non conflict view of society
- ⌘ Functionalists believe there are four main functions of education
- ⌘ ~~the transmission of cultural values~~
- ⌘ ~~social control~~
- ⌘ ~~economic training~~
- ⌘ ~~social selection~~

The Social Reconstruction Philosophy

- Schools are responsible for creation of new social order, working to solve problems of society
- Teachers are the engineers of a social revolution modeled after schools in the Soviet Union
- Curriculum is focused on *socially useful* group projects. The focus was on *collective* action for the betterment of society.
- De-emphasis of individual needs and desires.
- Curriculum should be *service-driven* with the content incidental to that ideal.

- (I) Warm and nurturing relationship with learners
- (II) Teacher statements to encourage students to elaborate on an answer
- (III) Teacher comments for the purpose of organizing what is to come
- (IV) Taking a student's response and repeating or applying it

Choose the correct answer from the options given below :

- (1) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
- (2) (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
- (3) (A)-(II), (B)-(I), (C)-(IV), (D)-(III)
- (4) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)

Match List I with List II

List I
Helping behavior of effective teaching

- (A) Using student ideas of contributions
- (B) Structuring
- (C) Probing
- (D) Teacher affect

List II
Description

- (I) Warm and nurturing relationship with learners
- (II) Teacher statements to encourage students to elaborate on an answer
- (III) Teacher comments for the purpose of organizing what is to come
- (IV) Taking a student's response and repeating or applying it

Choose the correct answer from the options given below :

- (1) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
- (2) (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
- (3) (A)-(II), (B)-(I), (C)-(IV), (D)-(III)
- (4) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)

Student-Centric Classroom is mean for _____

✓ 1. Addressing individual differences

2. ~~X~~ Reducing teacher-oriented lectures

3. Recalling the previous knowledge

4. Engaging the entire class

Ans: 1

Student-centered (Learner-centered) approach in the teaching-learning process:

- In this approach, the **'learner'** or 'child' and not the 'teacher' is the **main focus of the educational program**.
- It **emphasizes 'learning'** rather than **'teaching'** ✓
- The overall **goal** of education, according to this approach is **the all-round development of the child** and not only that of acquiring knowledge.
- **Curriculum**, according to this approach, should be **based upon needs, interests, aptitudes, and abilities** of learners at different levels so that it enables them to acquire the necessary skills, knowledge, attitudes, and values for realizing their full potential.

Which of the following will be called behavioral rather than "attitude and beliefs" related competencies for becoming an effective teacher?

- A. Locus of control - Behaviour
- B. Communicating
- C. Managing and monitoring] 100% True
- D. Teacher enthusiasm
- E. Evaluating and providing feedback]

Choose the correct answer to the options given below:

1. A, B and C only

Ans: 2

2. B, C and D only

3. B, C and E only

4. C, D and E only

Teacher

- The educational qualification of a teacher highly affects learning. There is a huge difference between a teacher with a professional teaching degree and without a professional teaching degree.
- The teacher should have the mastery of skills like communication, use of teaching aids, selection of appropriate teaching method, passion for teaching, etc.
- The experience of a teacher is important because it is required to deal with different learners with different pace of learning and cognitive levels.

Learner

- Psychological differences in learners play an important role in the teaching-learning process.
- Learner's attitude, aptitude, motivation, mental health, and goals in life highly affect the learning.

Learning environment

is sure

Neat & Clean

- Interaction of learners with teachers and other peers is important for active participation in classroom learning that has to be maintained by both teacher and learner.
- The social and economic background of the teacher and learner, directly and indirectly, affect their thinking.
- **Motivation in** the classroom is important. The teacher is an important person inside the classroom to motivate the child and provide rewards to induce interest in the learner.

✓ Effective teaching:

- It should be an effective way of teaching
- **The teacher tries to ensure students achievement to motivate them**
- It includes some steps like- **design, content selection, delivery, assessment, and reflection**
- The teacher has complete knowledge of the subject matter as well as how to **transfer** it for the students.
- ✓ Teaching aim to bring changes in learner and motivate learner by helping them **how to think** *Content*

Qualities of a teacher to become an effective teacher:

- Motivate student in learning
- Teaching tries to facilitate learning from every aspect
- Consider **individual differences** in the class
- ✓ **Self-organized and enthusiastic**
- ✓ Have strong **communication skill**
- A good listener to all the problems and ideas of student
- Adaptable to the changing environment
- Warmth and affectionate about students
- Value real-world learning
- Have patience
- **Focus on collaboration**
- ✓ Have good **management skill**

Below is given a list of teaching methods and approaches. Which among them are individualized approaches?

- ~~(i) Demonstration method~~ *group*
- (ii) Modular approach based teaching *~ T*
- (iii) Programmed learning *✓ T*
- (iv) Personalized teaching
- ~~(v) Collaborative method~~

100% F
100% T

Select your answer from the options given below:

1. (i), (ii) and (iii)

2. (ii), (iii) and (iv)

3. (iii), (iv) and (v)

4. (i), (iii) and (v)

Ans: 2

Modular Approach-based Teaching:

- A module is a subsystem of an instructional program where the whole curriculum is divided into meaningful units.
- An **instructional module is a self-contained unit of instruction** for the learner with a set of pre-determined objectives which help each learner **develop in tune with his abilities and learning style and reach the fullest potential.**

Programmed Instruction:

- It is an innovative step whose goal is the individualization of instruction.
- It consists of a **planned sequence of learning activities for achieving mastery.**
- This type of instruction works on the principle of **logical steps, active responding, immediate feedback, and self-pacing.**

Personalized Teaching:

- The personalized system of instruction refers to training that is based on **self-pacing and mastery learning.**
- In this method of teaching, the **learners work on their own** and are only assisted by teachers.
- These are personalized according to the needs and abilities of individual learners.

Question

From the list given below, identify those questions which are called **process** rather than **content-based questions**? CS

- (i) Convergent questions
- (ii) Divergent questions
- (iii) Fact-based questions
- (iv) Concept-based questions
- (v) Open questions
- (vi) Closed questions

Choose the correct answer from the options given below:

1. (i), (ii) and (iii)
2. (ii), (iii) and (iv)
3. (iv), (v) and (vi)
4. (ii), (iv) and (v)

From the list given below, identify those questions which are called **process** rather than content-based questions?

detail

(i) Convergent questions]

(ii) Divergent questions]

~~(iii) Fact-based questions~~] *theorems*

(iv) Concept-based questions]

~~(v) Open~~ questions]

(vi) Closed questions] *MCQ*

*{ 5 marks
3 marks }*

Choose the correct answer from the options given below:

~~1.~~ (i), (ii) and (iii)

~~2.~~ (ii), (iii) and (iv)

3. (iv), (v) and (vi)

4. (ii), (iv) and (v)

Ans: 4

Process-based Questions:

- They are designed to test the mastery of a subject as well as the ability to analyze the various processes of a system.
- They use cue words such as describe, explain, list out, analyze, etc.
- The type of process-based questions may include:
 1. **Concept-based questions:** These questions are designed to focus on transferable understandings that help students to make sense of their learning.
 2. **Divergent questions:** These questions stimulate children to think independently. They are encouraged to do use their **higher-order cognitive ability by combining original and known ideas into new ideas** or explanations. Questions that students answer by analysis, synthesis, or evaluation using their related knowledge of a question, a problem, or a situation are referred to as divergent questions.
 3. **Open-ended questions:** They may **have multiple answers**. Open questions are those that encourage divergent and evaluative thinking processes.

Content-based Questions:

- The content-based questions are designed to test the superficial knowledge of facts and information that doesn't require any higher level of cognitive abilities.
- They used cue words such as state, define, identify, etc.
- The type of content-based questions may include:

✓ 1. **Fact-based questions:**

- Fact is anything that is absolute truth and universally applicable.
- These questions are designed to simply check the knowledge of facts memorized by the students.

✓ 2. **Convergent questions:**

- These questions assist in problem-solving and are useful for basic processes such as measuring, communicating, comparing, and contrasting.
- These questions are also referred to as **closed-ended questions** as students are not expected to contribute to an original idea.

✓ 3. **Close-ended questions:** These are questions that **only accept one correct answer.**

TM

<u>Formative evaluation</u>	<u>Summative evaluation</u>
Evaluation is performed to determine how well students have mastered various element.	Evaluation is performed simply to grade the students at the end of course
Deals with only a segment	Deals with the whole in detailed manner.
Test can be administered after completion of the units.	Test can be given after the completion of the course/program
Immediate feedback	Feedback not possible immediately
Diagnostic and progress test can be possible	Achievement examination can be possible.
Weakness and strenghts of the students can be understand	Success and failure of the students will be possible.

Dimension	CRT	NRT
Score Interpretation	<p>Each individual is compared with a preset standard for acceptable achievement. The performance of other examinees is irrelevant.</p> <p>A student's score is usually expressed as percentage.</p> <p>Student achievement is reported for individual skills.</p> <p>Assessment against fixed standards or criterion</p> <p>Example: Driving test LET Citizenship Test Classroom Assessment Competency Based Assessment</p>	<p>Each individual is compared with other examinees.</p> <p>A score---usually expressed as percentile, a grade equivalent score, or a stanine.</p> <p>Student achievement is reported for broad skill areas, although some norm referenced tests do report student achievement for individual skills.</p> <p>Competitive, compares individuals with each other and ranks them</p> <p>Example: Olympics</p>

Q22

Given below are two statements :

Batch

Statement I: In norm-referenced testing of students, test data helps us determine a student's place or rank.

cu

Assignment

Statement II: In Criterion-referenced testing, the test data tells us about a student's level of proficiency.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Given below are two statements :

UGC
400% → 60%
↓
1%

1 student → 1 student

Statement I: In norm-referenced testing of students, test data helps us determine a student's place or rank. **F**

Statement II: In Criterion-referenced testing, the test data tells us about a student's level of proficiency. **Test**

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Ans: 4

Q 23 Given below are two statements :

Statement I : Indirect instruction is an approach to teaching and learning in which the process is inquiry, the content involves concept and the context is a problem.

Statement II : In NRT test data tell us about a student's level of proficiency in mastery of some skills or set of skills.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is correct but Statement II is false
- (4) Statement I is incorrect but Statement II is true

Given below are two statements :

Statement I: I Indirect instruction is an approach to teaching and learning in which the process is inquiry, the content involves concept and the context is a problem.

Statement II: In NRT test data tell us about a student's level of proficiency in mastery of some skills or set of skills.

In the light of the above statements, choose the correct answer from the options given below :

1. Both Statements I and Statement II are true

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is correct but Statement II is false
- (4) Statement I is incorrect but Statement II is true

- (3) (a), (b) and (c)
- (4) (a), (b) and (d)

Q37

Given below are two statements - one is labeled as Assertion (A) and the other is labeled as Reason (R):

T+ ICT

Assertion (A) : Through on-line teaching a large number of students can be taught by very competent faculty. ✓

moderate

Reason (R) : On-line teaching helps students in developing critical thinking more than the Off-line teaching can do. ✓

open-ended

In the light of the above two statements choose the correct option :

- (1) Both (A) and (R) are true and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are true and (R) is not the correct explanation of (A)
- (3) (A) is true, but (R) is false
- (4) (A) is false, but (R) is true

Given below are two statements - one is labeled as Assertion (A) and the other is labeled as Reason (R):

Grad 11/12

Assertion (A) : Through on-line teaching a large number of students can be taught by very competent faculty.

Reason (R) : On-line teaching helps students in developing critical thinking more than the Off-line teaching can do. **T/F**

~~for~~ child

3. A is true, but R is false

In the light of the above two statements choose the correct option :

- (1) Both (A) and (R) are true and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are true and (R) is not the correct explanation of (A)
- (3) (A) is true, but (R) is false
- (4) (A) is false, but (R) is true

Q38

Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R) :

Assertion (A) : Modern and ICT based teaching support requires some technical knowledge on the part of the teacher and learner.

Reasons (R) : Both teachers and learners have to be provided orientation in use of the various support tools and techniques in an intelligent way.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both (A) and (R) are true and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are true but (R) is NOT the correct explanation of (A)
- (3) (A) is true but (R) is false
- (4) (A) is false but (R) is true

Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R) :

Assertion (A) : Modern and ICT based teaching support requires some technical knowledge on the part of the **teacher and learner.**

Reasons (R) : Both **teachers and learners** have to be provided orientation in use of the various support tools and techniques in an intelligent way.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both (A) and (R) are true and (R) is the **correct** explanation of (A)
- (2) Both (A) and (R) are true but (R) is NOT the correct explanation of (A)
- (3) (A) is true but (R) is false
- (4) (A) is false but (R) is true

Ans: 1

Q39

Identify the teaching strategies which are employed during indirect instruction :

Eliminate

- (A) Emphasizing direct and indirect exemplars
- (B) Presenting the stimulus material
- (C) Inquiry based question-answer session
- (D) Presenting, asking and providing feed back
- (E) Promoting problem solving approach
